VibeScope – Discover Your Digital DNA

Software Developer Assignment Submission

📝**Developer Details**
Name: Nandini Jindal
Role: In-House Vibe Builder/Coder (Software Developer)
Project Name: VibeScope – Discover Your Digital DNA

🎯**Selected Challenge:**
 "Vibe Check" Personality Quiz – A lightweight, interactive quiz that determines a user's digital personality ("vibe") through five questions. The app includes real-time progress updates, vibe calculation logic, and leaderboard functionality.

- GitHub Repository: https://github.com/Nandini80/VibeCast

✨ **Features Delivered**
 User Experience
- Smooth onboarding with quiz-style flow (5 questions).
- Live progress indicator with animated transitions.
- Four distinct vibe categories:
    - Chill Vibes 😌
    - Party Animal 🎉
    - Wholesome Soul 🌻
    - Mysterious Aura 🌙

- Personalized results with unique gradient backgrounds and emojis.
- Shareable results page for social engagement.

🧠 **Technical Highlights**
- Built with Next.js and React.
- Styled using Tailwind CSS for rapid UI development.
- Deployed via Vercel with live preview and instant updates.
- Fully mobile-optimized layout.
- Clean and reusable component-based architecture.
